

Press Release – 3 July 2018

Celebrating the winners at the Fourth Markt&Technik Summit

Oliver Winzenried elected among the “Managers of the Year 2018”

Karlsruhe, Germany – More than 7000 readers of Markt&Technik, the German weekly electronics magazine, cast their votes to choose the “Managers of the Year 2018”. In each of the nine categories, the three contenders with the most votes were chosen to receive their awards at the Fourth Markt&Technik Summit on 17 May. Oliver Winzenried, CEO and co-founder of Wibu-Systems AG, was chosen among the top “Pioneers & Innovators”.

The proud winner explains: “This news will certainly not mean that I can now rest on my laurels. It’s an incentive for me to work even harder for protection, licensing, and security. Over the next few years, Wibu-Systems is planning to invest massively into a new House of IT Security at our home base, which will bring other enterprises, start-ups, and researchers into the loop. As so many times before, this event has been a great experience and an opportunity to meet and network with experts from many leading companies.”

Oliver Winzenried speaks about his work.
